

# ROUND TABLE

**RADSTOCK**

## Derby UK, 12-14 October 2015

*Round Tables serve as a window into the Radstock network. Part vision trip, part conference - Round Tables are the network in action! Experience first hand this gathering of Radstock network churches as they equip and encourage one another, explore new mission opportunities and consider issues facing global mission today.*

### PROJECT FOCUS

Each Round Table highlights a mission opportunity. This Round Table, we will be learning about the work of Urban Life, a Radstock member church in Derby UK. Pastor Anthony Adams and others will share about their experience starting and growing a church in the multi-cultural urban context of inner-city Derby. Join with us as we experience the diversity of cultures seeing the work of Urban Life first hand.

### MISSION FOCUS

Against the backdrop of the local mission focus, we will explore themes of mission in inner city contexts, theology of the City, multi-cultural contexts and partnerships, introducing Muslims to Jesus and more. We've already had commitments from church leaders in Ukraine, Mongolia, Russia and Ireland and will hear about on-going mission in those places.

Radstock's local church passion and vision for whole church involvement and cross cultural partnerships will shape our discussions as we share opportunities, make connections and pray for the advancement of the gospel in tough places. Won't you join us?
