

Radstock Albania is excited to host the Radstock Academy "Church Planter's Intensive Training".

This is training for those who are on a path toward a church planting ministry. The training combines Bible principles and real-life lessons by experienced church planters.

There will also be a focus on the individual to help them understand their strengths, weaknesses and suitability for church planting.

Teaching will be given by experienced church planters from Albania, Ukraine, UK and USA.

A significant emphasis will be on spending time in discussion and fellowship with the instructors in order to learn from their experience.

The Training is open to people from every country.

An application and church recommendation is required. So far, there are six applicants from Albania and Ukraine. Registration will be limited to 10.

## **Training host**

### **“Radstock Academy”**
